PTO tractor-driven IP23 and IP44 generators

ITALIAN QUALITY

ICONIC

2001 AGROWATT brand pioneers the market of PTO generators with its unique 3-point-connection steel frame. An icon is born. Range up to 38 kVA 2 poles/compound IP23

2004 IP44 models. Range up to 63 kVA 4 poles brushless/AVR IP23

2008 Power extension up to 90 kVA 4 poles brushless/AVR IP23

2010 AGROWATT version for Norway

2013 AGROWATT version for Austria

2018 AGROWATT version for Germany

AGROWATT GS 38 kVA year 2001

SINCE 2001

2023 Introducing

AGROWATT BUD

New large powers
up to 140 kVA 4 poles
brushless/AVR IP23 & IP44

The power of an icon

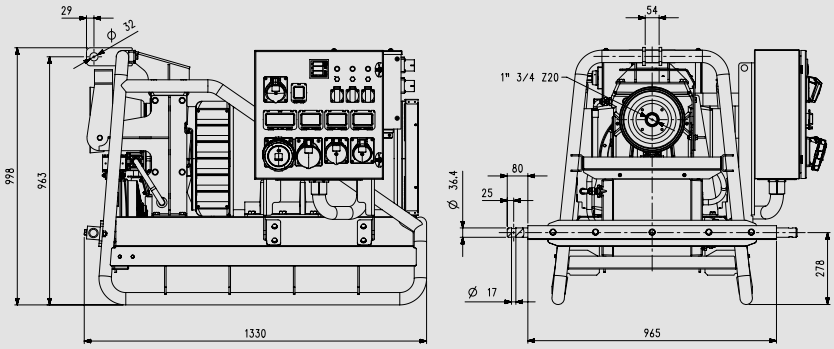
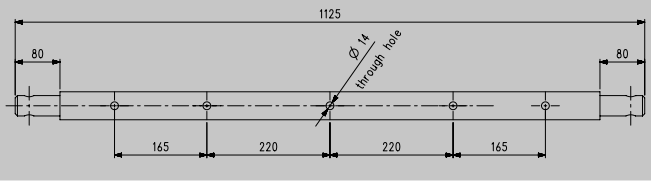
AGROWATT BUD

AWB 4-125



- Gearbox 750 RPM or 1000 RPM
- Advanced features for control panel
- Single pole power connectors
- Radiator
- Superlative performance
- Easy use

FIXING BAR CATEGORY 3 Standard for AgroWatt BUD



2 versions for specific markets

AGROWATT meets the most severe international standards for PTO generators, confirming its global reputation as the market leading brand. Special executions are realized for specific markets like Austria, Germany and Norway with dedicated features like power connectors and deeply customized control panel. ***AGROWATT, feel the power, feel the look!***

3 fast connection

1, 2, 3... READY!

- The unique design of AGROWATT allows simple and fast 3-point-connection to the tractor. The control panel features easy access to the equipment, making the tractor engine speed setting very quick.
- **PLUG & POWER!** 3-phase and 1-phase CEE sockets, to immediately connect the system.
- **PROTECTION FOR USERS AND EQUIPMENT.** MCB's Miniature Circuit Breakers (in case of overloads) + RCD Residual Current Device.

4 full control

To secure 24/7 farms from energy failure, AGROWATT means robustness, durability, power also in harsh and extreme conditions. And not only.
AGROWATT also means full control thanks to the integrated panel with sockets, magnetothermic switch, hour counter, voltmeter, frequencymeter and ammeter, all of this provided as a standard for greatest control: users can monitor and track all working parameters at any time.
Special versions are available with power connectors and dedicated features.

The complete descriptions of panels are available also in the AGROWATT price list

Warranty conditions

Soga guarantees the own Agrowatt alternators for a period of 24 months starting from the invoice date. We confirm that warranty is directed only to Soga customers to which we respond. Soga does not grant warranty to those who have not directly purchased the product from the factory, in spite of the possession of it. Within the above mentioned terms, Soga commits itself to supply free of charge those spare parts that, according to its judgment or to the one of an authorized representative, appear with manufacturing or material defects or, always to its judgment, to directly or through an authorized center carry out the repairing without undertaking transport costs. We anyhow exclude forms of responsibility or obligation for other costs, damages and direct or indirect loss caused by total or partial usage or impossible usage of the products. The repairing or the substitution will not extend or renew the warranty duration. Warranty will not be granted: whenever break-downs or problems may appear because of lack of experience, usage over the nominal performances, if the product had been modified or should return incomplete, disassembled or with modified nameplate data.

Soga reserves the right to change the data in order to update or improve its products without prior notice
